CUSTOM ENGINEERING SPA, an Italian leader in specialized thermal printer design and manufacturing, is pleased to announce the founding of **C.P.E. (Custom Production Europe)**. The new company, with registered office in Glimboca, in the region of Caras-Severin, 100 km from the city of Timisoara in Romania, started production in May 2006, chiefly specializing in the assembling of print mechanisms for the CUSTOM line.

With the founding of C.P.E., the number of basic assembly suppliers (both Italian and foreign) working with CUSTOM rises to 13. This includes the sub-contractor in India, dedicated to the KUBE printer line.

In the course of 2007, construction work will commence on the new Romanian production plant, a modern building of 1500 sq. m., with the aim of tripling production in the course of the next 3 years.

For further information visit the CUSTOM web site at [www.custom.biz](http://www.custom.biz), where the entire range of CUSTOM products is displayed.
